TECHNOLOGY · EDUCATION · COMMUNITY

The Foundation for Shrewsbury Education proudly sponsors:

<u>Coding Club for 5th to 8th grades hosted by iCode of Shrewsbury</u>

- After school on Thursday's in the Computer Lab

- Class schedule is 4/11, 4/18, 4/25, 5/2, 5/9, 5/16

- Classes are directly after school until 4:15pm.

- 15 spots available

iCode – Shrewsbury

This weekly one-hour program provides an interactive environment where participants delve into the world of technology, specifically focusing on Lua coding language and utilizing platforms such as Roblox Studio and Construct 3. Throughout the sessions, students will acquire valuable skills in game development, honing their abilities to design and build their own games. The program not only nurtures creativity but also fosters teamwork and problem-solving as students collaborate on various coding projects. By the end of the programs, participants will have a solid foundation in coding and gaming design, equipping them with essential skills for the rapidly evolving digital landscape.

- Parents are encouraged to be sure each student can attend all classes before signing up

- Please email foundationforshrewsburyed@gmail.com with interest including student name, grade, and contact information by **<u>*5PM Thursday March 28th*</u>**.

(If we receive over 15 submissions we will hold a lottery, thank you)
